International Year of Chemistry 2011 and National Chemistry Week

International Year of
CHEMISTRY
2011

The theme of the 3rd quarter of IYC 2011 is “Materials”. SoFL-ACS is planning a seminar meeting around nanomaterials for early fall (details still in development). The official IYC 2011 web site at www.chemistry2011.org serves as the central location for information about worldwide activities. National Chemistry Week will be celebrated nationwide the week of October 16-22, around the theme “Chemistry - Our Health, Our Future”. SoFL-ACS is developing plans for our local section NCW celebration and family day (details forthcoming).
